Introduction

This year the annual meeting of our Society has "how to...?" as general theme.

The morning session will address different diagnostic approaches : biopsies, high grade dysplasia and the use of EUS.

A special part will also be dedicated to the training in gastroenterology (therapeutic endoscopy and US) and the running of endoscopy database.

The afternoon session will be more therapeutic oriented with mucosectomy, colonic obstruction, stenting, upper GI bleeding management, pancreatic drainage and difficult cannulation.

With this exciting topics and speakers we hope to welcome you in Charleroi.

On behalf of the BSGIE Board,

Vincent Lamy

Accreditation has been requested. (cat. 2)

08.30 Registration / Welcome coffee

Morning session

Chairs: M. Buset, *ULB, St. Pierre*
D. Urbain, *AZ-VUB*
