Introduction

Dear colleagues,

On behalf of the board of the Belgian Society of Gastrointestinal Endoscopy, we are delighted to invite you to attend the next annual symposium that will be organised in Ghent. This year's symposium will focus on new diagnostic tools in endoscopy. The several sessions will consist of keynote lectures on new imaging techniques in conventional endoscopy, endoscopic ultrasound and the use of miniature endoscopes.

A distinguished faculty will present the latest data in this evolving and fascinating area and by the end of the day we hope to have the answer to burning questions such as «Has the optical biopsy become a fact?» or «Will miniature endoscopes take over conventional endoscopy?».

A special session, accredited in «category 6», will be dedicated to nurse-endoscopy. Several countries already have substantial experience in this field. What can we learn from them and will we need non-physicians doing endoscopy in our country in the future?

We also want to introduce a new initiative in this symposium: the input of all members through remarkable videos of endoscopic procedures. To this end we urge every member to participate and send a video to the selection committee.

And last but not least, this scientific program for endoscopists and endoscopy-nurses/assistants will be presented in one of the most beautiful cities of Flanders. So, take the opportunity to stay over for the weekend and visit Ghent. You won't regret it!

Danny De Looze

Accreditation has been requested (cat. 2 and 6)

Program

08.30 Registration / Welcome coffee

09.00 Introduction.
D. De Looze (UZ Ghent)

Mucosal imaging beyond the frontiers of white light endoscopy.

Chairs: E. Macken (Antwerp) and
M. Buset (Brussels)

09.10 Chromo-endoscopy and high-resolution endoscopy.
D. De Looze (UZ Ghent)

09.20 Narrow Band Imaging (NBI) and FICE. Potential and limitations.
R. Bisschops (UZ Gasthuisberg-Leuven)

09.40 Confocal Laser Endomicroscopy (CLE).
R. Kiesslich (Mainz-Germany)

10.10 Has the optical biopsy become a fact?
P. Siersema (Rotterdam-The Netherlands)

10.40 Coffee break

Biliary and pancreatic imaging.

Chairs: D. Urbain (Brussels) and
X. De Coninck (Ottignies)

11.10 Towards a better visualisation of the bile duct and pancreatic duct.
O. Lemoine (ULB-Brussels)

11.30 Towards a better differentiation of malignancy with EUS elastosonography.
P. Deprez (UCL-Brussels)

Video forum (part 1).

11.50 Selected videos by BSGIE members
General assembly BSGIE

12.30 Lunch break

Nurse endoscopy: a dream (or a nightmare ?) becomes true...

Chairs: M. De Vos (UZ Ghent) and
P. Ceulemans (AIEVV)

13.45 Experience with non-physician endoscopy in the UK.
E. Swarbrick (Brighton – United Kingdom)

14.10 Do we need nurse-endoscopy in Belgium?
Discussion

Miniature endoscopes: a new era in digestive endoscopy?

Chairs: P. Vanderspek (Aalst) and
V. Lamy (Charleroi)

14.30 The colon capsule.
N. Schoofs, A. Van Gossum (ULB Brussels)

14.50 The Aer-O-scope: a self-propelling and self-navigating colonoscope.
N. Arber (Tel Aviv-Israel)

Video forum (part 2).

15.30 Selected videos by BSGIE members

16.00 End of the meeting
