## Annual meeting 2012

### DAILY CHALLENGES IN DIGESTIVE ENDOSCOPY FOR ENDOSCOPISTS AND ENDOSCOPY NURSES

Thursday, September 20<sup>th</sup>, 2012

VUB Campus Jette  
Auditorium Brouwer

Dear colleagues and endoscopy-nurses,

On behalf of the board of the Belgian Society of Gastrointestinal Endoscopy, we are delighted to invite you to the annual BSGIE symposium, which has undergone a metamorphosis for its 2012 edition.

First of all, this "new style" symposium will be organised on Thursday the 20<sup>th</sup> of September, instead of the last Saturday of January. Don't you agree that "weekends should be sacred and dedicated to family"? As we are working closely together with endoscopy-nurses all day through, we also invite our nurses to attend this symposium that is organised with the support of AIEVV. In order to avoid traffic problems, this meeting will start at noon and will be organised in the centre of this country: the university hospital of Brussels (VUB) which is very accessible by car. But, most importantly, the scientific program promises to be interactive and furnish you with practical information for your daily endoscopic practice.

In this year's edition of "Daily challenges in digestive endoscopy" gastro-intestinal bleeding and PEG/PEJ placement are programmed. We are convinced that for both endoscopists and endoscopy-nurses these topics will cover a lot of problems that belong to our common practice. More practical tips and tricks will be offered during a session in which experts in the field will reveal their secrets how they do certain endoscopic manoeuvres. At the end of the meeting Jacques Devière will give a historical overview of flexible digestive endoscopy in Belgium, since this year is the 50<sup>th</sup> anniversary of this wonderful technique.

Once more we ask your collaboration for sending videos of endoscopic procedures that can be selected for the video forum. But we also ask you to send us special endoscopic pictures (accompanied by a short patient history) to be used in the endoscopy quiz.

The BSGIE board is hopeful that its members will appreciate this "new style" symposium and we are looking forward to meet you all in Brussels in September.
